

FRANCO ALVAREZ

FULL STACK WEB DEVELOPER

ABOUT ME

Highly motivated, self-taught developer seeking to launch a career building web applications and services. Looking forward to land my first job and keep growing as a developer with a group of experienced people.

EDUCATION

• ISP N 5 "Perito Francisco Moreno"

English Teacher, April 2017 - June 2021

Not finished yet.

• Egg Cooperation(Bootcamp)

Full Stack Java Developer
July 2021 - July 2022

By the end of this bootcamp, I was able to build my own website with Java (Spring-boot Framework) and MySQL as backend, also learned the basics of HTML, CSS and Bootstrap as frontend.

• Self-Taught

July, 2022 - Present

As soon as the previous bootcamp ends, I started to learn on my own with online material.

I've switched from Java to Node.js and started to learn React.js along side good practices such as hooks, reusable components, virtual dom, state/props & more.

EXPERIENCE

FREELANCE

(FRONTEND - 2 MONTHS)

- Development and design of web applications using React.js to create modern and functional interfaces.
- Collaboration with the client to understand their requirements and business objectives, ensuring the delivery of customized solutions aligned with their needs.
- Implementation of best development practices to guarantee clean, efficient, and easily maintainable code.
- Optimization of application performance to achieve fast loading times and a smooth user experience.
- Integration of APIs and web services to enhance functionality and user experience.
- Troubleshooting and debugging to ensure stability and quality of the final product.
- Regular communication with clients to keep them informed about the project's progress and manage their expectations.
- Implementation of Scrum methodology in collaboration with the client.
